

Northwestern Student

New York, NY | [Phone] | [Email] | [LinkedIn URL] | [GitHub URL] | [Portfolio URL]

Target: [Target company] | [Target role]

EDUCATION

Northwestern University

Evanston, IL

[Degree] in Computer Science | GPA: [GPA] | Expected [Expected graduation]

- CS Coursework: [Verified computer science coursework only]
- Additional Coursework: [Verified relevant coursework, if applicable]

EXPERIENCE

[Employer or lab]

[City, State]

[Role title]

[Month Year - Month Year]

- Improved [workflow/feature] by implementing [verified change] in [verified technology]; measured [outcome] against [baseline] using [evidence].
- Added [tests/validation/monitoring] for [system behavior], covering [edge cases]; evidence: [approved URL].

[Employer, lab, or organization]

[City, State]

[Role title]

[Month Year - Month Year]

- Analyzed [dataset/process] with [verified tools] to answer [stakeholder question]; documented [finding/decision] with [evidence].
- Automated [repetitive task] across [verified inputs], reducing [effort/errors] by [measured result]; evidence: [source].

[Open-source project or campus group]

[City, State or remote]

[Contributor or student role]

[Month Year - Month Year]

- Fixed [confirmed bug or workflow gap] in [verified technology]; tested [case] with [reproducible method].
- Documented [design decision] and responded to [review feedback]; evidence: [public contribution link].

PROJECTS

[Project name] | [Verified technologies]

[Month Year - Month Year]

- Built [component/workflow] for [user problem] using [verified stack]; validated with [tests/demo/user feedback].
- Owned [specific scope] and recorded [design trade-off/limitation]; evidence: [repo/report/demo].

[Project name] | [Verified technologies]

[Month Year - Month Year]

- Designed [system or data flow] for [problem], with [one constraint/edge case] handled by [decision].
- Compared [baseline] and [change] using [method/data], recording [verified result or limitation] in [artifact].

[Project name] | [Verified technologies]

[Month Year - Month Year]

- Compared [baseline] with [candidate change] using [evaluation method/data]; result: [verified result].
- Recorded [limitation/failure mode] and [verified next step] in [report/repository/demo].

TECHNICAL SKILLS

Languages: [Add verified languages only]

Libraries & Frameworks: [Add verified technologies only]

Tools: [Add verified tools and platforms only]

LEADERSHIP & ACTIVITIES

[Organization or activity]: [Verified role]

[Month Year - Month Year or Present]

Interests: [Optional verified interests]
